Reply to Advisory Action Dated 05/03/2007

MAY 10 2007

Attorney Docket No: 3926.070

REMARKS

The Examiner has stated on page 2 of the advisory action dated 05/03/2007 that information from the claims must be written into the specification, else there is no basis in the specification for the claims. As already discussed in previous responses, Applicants believe that claims only need to be supported by the specification, but not necessary to be identically recited in the specification. Although Applicants believe that the claims are clearly supported by the specification, the specification has been modified to clearly incorporate the existing claims language. Paragraph [00010] clearly provides basis for claim 6; paragraph [00017] clearly provides basis for claim 7; paragraph [00020] clearly provides basis for claim 10-11; and paragraph [00022] clearly provides basis for claim 12.

Favorable consideration and early issuance of the Notice of Allowance are respectfully requested. Should further issues remain prior to allowance, the Examiner is respectfully requested to contact the undersigned at the indicated telephone number.

Respectfully submitted,

Yonghong Chen
